But you can do this faster with a third-party key-remapping utility We'll be using, which you can download for free.. Install SharpKeys, open it, and click the Add button to add a new key remapping.. You could do this by remapping the key manually in the registry – in fact, we've explained just.. Remap Caps Lock Even if you were using AutoHotkey to do this, the Caps Lock key won't work quite right if you associate an event with it.
